When creating and deploying the Blue Cat contract, we've decided to use the already proven functional structure with LP acquisition + locking buyback wallets. This contract structure has been proven to work well both to reduce potential dumps and also to be sufficiently rewarding to our holders.

Also would we like to add that our marketing wallet will be used for marketing and utility purposes only.

# Staking/NFTs Staking

Explore the Blue Cat NFTs currently in your collection and stake them to earn rewards. You also have the ability to sell your Blue Cat NFT on our market place.

# G.C B-Cat Game

This is a decentralized betting game hosted on the Binance Smart Chain. You can flip a virtual coin and bet on the outcome. If you win, you get the double amount back. If you lose, the bet is gone!

# KYC & AUDITS

As for our KYC audit, we have contacted <https://www.analytixaudit.com/> as they are a trusted tier 2 KYC and audit company.

KYC and audit have been paid for and at the time of writing we are waiting on the results.

Once this is done, we will update this page of our whitepaper with the link and a statement from them.
